PROGRAMME REPORT

Name of the Programme	: A One day ICT programme on “Data Management Skills”
Date	: 04-01-2023
Resource Person	: Mr.M. NAGA RAJU
Name of coordinator	: Dr.S.Ramana Babu, Assoc. Professor ME, GIITS
Number of Students attended	: 41
Venue	: Computer Room, GIITS

Our college placement cell and Mechanical Engineering Department are well-organized. On January 4, 2023, a one-day ICT program on "Data Management Skills" was held. The session was inaugurated by Principal Dr. P.S.N. Murthy, who thanked the speaker for organizing a programme.

Data management is in high demand since they enable professionals to use available data to support a company's overall organizational objectives. Even if you are not applying for a database management role directly, being able to highlight basic skills for data management can position you as a highly competitive candidate for job openings. Learning about different kinds of management skills for data can help you identify areas where you can grow and improve.

In this session the resource person discuss what data management skills are, list specific examples of these skills and outline how students can improve and highlight them. Data management skills are abilities that enable professionals to effectively manage and use data. Data is available in abundance and is very important for businesses since it helps them grow and make important decisions. Competencies in this domain involve looking for patterns in data types, understanding database design fundamentals and being able to take part in short- and long-term database projects There are different kinds of skills that professionals use to store and manage data. If you are looking for work in this domain, consider developing these skills:

Data analysis is the process of methodically applying statistical and logical approaches to comprehend data and draw inferences from it. Identifying patterns in data can help businesses optimize processes and improve revenue. Developing analytical skills involves becoming familiar with the data you have access to and creating innovative ways to use it to achieve objectives.

The ability to effectively navigate database software is a prerequisite for most roles in this domain. Database managers locate records and use other software functions to isolate key data points. Professionals who work with databases may also use automated scripts to generate reports on large volumes of data.

Competent database managers typically have a thorough understanding of how different components in a database interact with each other. Knowledge of programming is an advantage in database management roles, but may not be a mandatory requirement. An in-depth understanding of database design concepts can help professionals succeed in building a career in this domain. You can make yourself familiar with the unique features, limitations and benefits of different types of databases. Similarly, it is also important to understand how to best analyze and store different types of data. An in-depth understanding of database design concepts can help professionals succeed in building a career in this domain. You can make yourself familiar with the unique features, limitations and benefits of different types of databases. Similarly, it is also important to understand how to best analyses and store different types of data.

Data integrity is a fundamental part of the design, implementation and use of any system that stores, processes or retrieves data. Maintenance and assurance of data accuracy and consistency are a part of a database's life cycle. Database users benefit from identifying and accounting for potential deviancies while using and evaluating raw data.

Finally resource person concluded with How to Improve Skills for Data Management

1. Pursue formal education
2. Complete certification courses
3. Improve communication skills
4. Using data management skills in the workplace
5. Regulate and document database
6. Monitor the security of the central data base
7. Use data to support business objectives

Data Management Program Outcomes

- Design, develop and code data applications to meet user needs
- Manage, coordinate and work with stakeholders and teams using industry practices such as systems lifecycle, and agile methods
- Collect, analyze, integrate and query data from disparate sources
- Create and model end-user data visualizations using business intelligence
- Develop data analytics applications using descriptive and predictive model

A One day ICT programme on “Data Management Skills”

The students found this course to be really helpful, and they gave it good reviews. The resource person and participants were thanked by the management and principal of GIITS for helping to make the program successful.

Coordinator gave the formal vote of thanks at end of the programme.

PROGRAMME REPORT

Name of the Programme : A One day ICT programme on “Exploring the Impact of Information and Communication Technologies on Modern society”
Date : 20-12-2021
Resource Person : Mrs. S. ANURADHA
Name of coordinator : Mr.Y.SURESH
Asst Prof, HOD ME, GIITS
Number of Students attended : 40
Venue : Computer Room.

Our college Placement cell organized a programme on "Exploring the Impact of Information and Communication Technologies on Modern Society." The resource speaker provided a quick overview of information regarding communication technologies, emphasizing that working in ICT necessitates an awareness of the company's preferred technology for daily tasks. Data from social media management, management, desktop publishing, and word processing can all be found online. This training program was attended by 40 students, and upon completion, they were able to grasp the following objectives and learning outcomes.

Objectives:

SECTOR	ICT USED FOR	WEBSITE
AGRICULTURE	Various activities related to research development and training in agriculture and allied fields.	http://dare.nic.in/ https://bit.ly
BEAUTY AND WELLNESS	Training programs in beauty and wellness sector.	http://www.bwssc.in/
BANKING AND FINANCE	Training programs in banking, financial services and insurance sector.	http://www.bfsissc.com/
HEALTH CARE	Training sector programs in Health Care.	http://www.healthcare-ssc.in

The above-mentioned sites were suggestive. You may visit various other sites related to the sectors for more information about the activities being organized in the sector and understand the benefits of ICT in searching, collecting and using information for different purposes.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES
(Approved by AICTE, New Delhi, Affiliated to JNTUK, KAKINADA)
Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Learning Outcomes:

After completing of this session, will be able to

- Identify the importance of information and communication technology.
- List the various tools that are being used for ICT.
- Demonstrate the knowledge of application of ICT in our daily life
- Demonstrate the knowledge of the uses of ICT tools, such as smart phones and tablet.
- Differentiate between smart phones and tablets.

A One day ICT programme on Exploring the Impact of Information and Communication Technologies on Modern society

This course was really beneficial to the students, who provided good feedback. The GIITS management and principal acknowledged the resource person and participants for their contribution to make the programme a success.

TPO gave the formal vote of thanks at end of the program.

PROGRAMME REPORT

Name of the Programme	: A One day ICT programme on “Word Processing Skills”
Date	: 13-10-2020
Resource Person	: Ms.G.REKHA
Name of coordinator	: k.Sameer, Asst Professor HOD Of CSE
Number of Students attended	: 43
Venue	: Computer Room,

Our college placement cell as well as our CSE Department are well-organized. On October 13, 2020, a one-day ICT program on "Word Processing Skills" will be held. Principal Dr. T. Venkateswara Rao inaugurated the program by welcoming the speaker for providing a program.

In this session the resource person discusses how to access and use word-processing tools. The most popular word-processing program is Microsoft Word, part of the Microsoft Office Suite. Most college computer labs have this program available, and you can sometimes purchase it for a reduced rate through your college bookstore or campus technology center.

Objective of word processing skills;

1. Understand how to access and use word-processing tools.
2. Be able to word process at least two-three sentences.
3. Be able to insert images.
4. The students will be able to explain the general concepts of the Word processors
5. The students will explain the concept of Word Processor
6. The students will be explaining the process of Word Processor
7. The students will list the general properties of Word Program

A One-day ICT programme on “Word Processing Skills”

This course was very useful to the students and their feedback is in positive. The management And Principal of GIITS thanked to the resource person and participants for making the program successful

Coordinator gave the formal vote of thanks at end of the programme.

PROGRAMME REPORT

Name of the Programme	: A One day ICT programme on “Need of Online Tools For Researchers”
Date	: 26-06-2019.
Resource Person	: Ms G.Anuradha
Name of coordinator	: Ms.G.Reka, Asst Professor,CSE.
Number of Students attended	: 63
Venue	: Computer Room.

Our college Placement cell and CSE Department is organized A One day ICT programme on “Need of Online Tools for Researchers” conducted on 26-06-2019. The program was inaugurated by Principal Dr. T. Venkateswara Rao who expressed his gratitude to the speaker, for presenting a programme.

The resource person began this session's discussion by outlining the value of online research for researchers. Managing several activities, producing useful results, making the most of their time, and compiling information that is publishable are all current concerns for all researchers, regardless of their field of study. All of these require a well-planned and organized system, which is accomplished by tracking the development and collaboration of your projects, finding pertinent literature, writing your project proposals, reports, and articles, avoiding grammatical mistakes, citing original sources, establishing networks, looking for journals for publication, etc. Additionally, the resource person proceeded by mentioning the need for internet tools. The following are the top 6 categories of online resources for researchers that are crucial at different phases of research

- A. Project Management Tools
- B. Grammar Checker Tools
- C. Reference Management Tools
- D. Plagiarism Checkers
- E. Journal Finder
- F. Social Networking for Academics.

A One-day ICT programme on “Need of Online Tools for Researchers”

This course was very useful to the students and their feedback is in positive. The management And Principal of GIITS thanked to the resource person and participants for making the program successful |Coordinator gave the formal vote of thanks at end of the program

PROGRAMME REPORT

Name of the Programme : A One day ICT programme on “Network Etiquette Skills”
Date : 13-07-2018
Resource Person : Dr.S.Ramesh
Name of coordinator : Ms.G.Reka, Asst Professor, CSE
Number of Students attended : 47
Venue : Computer Room

Our college placement cell and CSE Department organized "A One-Day ICT Program on Network Etiquette Skills," conducted on July 13, 2018. The program was inaugurated by Principal Dr. T. Venkateswara Rao, who expressed his gratitude to the speaker for presenting a program.

Netiquette refers to internet guidelines that advise people on how to communicate and treat others when interacting online. These guidelines can apply to multiple aspects of the internet, such as email, message forums and video chats. Practicing netiquette is like practicing etiquette because both involve interacting with often research job candidates, and they might be more likely to hire someone who treats others with respect.

It's also valuable to practice netiquette so you can communicate effectively with people like coworkers, classmates or teachers through online platforms. For example, you may find it important to know how to write a kind, professional email when inquiring about a job opportunity with a potential employer others respectfully. However, the rules for netiquette are specific to online communication. Practicing netiquette can be important for strengthening student online reputation.
