ABOUT COLLEGE

The Gonna Institute of Information Technology and Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G. B. Naidu to give students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the Engineering stream, including graduate-level courses in CIVIL, EEE, MECH, ECE, and CSE as well as MBA and M. Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world to give the Indian industry access to cutting-edge information and awareness. The Institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities.

ABOUT CIVIL DEPARTMENT

The Department of civil Engineering of Gonna Institute of Information Technology and Sciences was established in 2009 and has had an impressive fourteen-year history. The department has always advanced because of the knowledgeable and dedicated faculty members who are passionate about providing top-notch engineering education.

OVERVIEW OF THE FDP

A well design architecture can enhance the security of computer systems by implementing secure protocols access controls.

An architecture that is design to be scalable allows systems to handle increasing workloads and growing user demands effectively.

Architecture rivet influences the design of operating systems, data bases web applications and distributed systems.

OBJECTIVES OF THE FDP

- Rivet architectural software often focuses on providing tools for visualizing and creating 2D and 3D architectural designs.
- BIM software aims to create a digital representation of a building project, incorporating geometric and spatial data, material information, and other relevant details.
- Many architectural software tools provide functionality for analyzing and simulating various aspects of a building design,

TOPICS TO BE COVERED

- Exploring the structural frame work
- Sustainable building solutions

PROGRAMME REPORT

Name of the Program: A One Week faculty development program on Rivet Architecture and Application.

Date : 10th to 14th February 2020

Title of FDP : RIVET ARCHITECTURE AND APPLICATION

Resource Person 1	Resource Person 2
<p>Mr. Syed Sibgathullah Assistant Professor M. Tech, Civil Engineering Srinivasa Engineering College of Science and Technology Kadapa. Mobile No.: 9603918429 Email ID: sibgatullasyed@gmail.com</p>	<p>Mr. Y. Suresh Assistant Professor HOD, Mech, GIITS.</p>

Objective of FDP:

- The objectives of the program are to provide tools for visualizing and creating 2D and 3D architectural designs. BIM software aims to create a digital representation of a building project, incorporating geometric and spatial data, material information, and other relevant details.
- Many architectural software tools provide functionality for analyzing and simulating various aspects of a building's design, such as structural integrity, energy efficiency, and air flow.
- Rivet architectural software often includes features for producing construction drawings, detailing, and documentation.
- Rivet architectural software may include features for collaboration and coordination among project stakeholders such as architects, engineers, contractors, and clients.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES

(Approved by AICTE, New Delhi, Affiliated to JNTUK, KAKINADA)

Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Outcomes of FDP:

- The program was very helpful to all faculty in understanding that Rivet is a misspelling or a variation of rivet. Autodesk Rift is a popular building information modelling software used in the architecture, engineering, and construction industries.
- Riveted architecture has historical significance and can be found in various heritage structures around the world.
- Alternatively, rivet architecture could be a new terminology or concept that has emerged since my last update.

Details of the Resource Persons:

Lecture-1

- **Name** : Mr. Syed Sibgathullah
- **Designation** : Asst. Professor
- **Qualification** : M. Tech
- **Department** : Civil engineering
- **Organization** : Srinivasa Engineering College of Science and Technology, Kadapa.

ABOUT COLLEGE

The Gonna Institute Of Information Technology And Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Mr. G. B. Naidu, with the aim of giving students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population increase. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the engineering stream, including graduate-level courses in Civil, EEE, Mech, ECE and CSE as well as MBA and M.Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world in order to give the Indian industry access to cutting-edge information and awareness. The institute is endowed with informed teachers who are highly qualified, as well as cutting-edge facilities. GIITS offers a range of exciting environments for intellectual development, free thinking, and personal growth in order to challenge its students and give them the information, understanding, attitudes, and practical experiences they need to assume social duties.

ABOUT MBA DEPARTMENT:

The department of management studies was established in the year 2019 with an objective of producing young management executives with global standards. The MBA programme is a 2-year (4 semesters) full time Master Degree programme in Business Administration. While the first year is devoted to foundational course, the second year would enable the students to gain a depth knowledge in different areas and specialize in elective fields like Finance, HR, Marketing, Operations and Logistics.

OVERVIEW OF THE FDP

Entrepreneurship is one of the most important inputs in a country's economic development in the ever increasing arena of unemployment and economy. This FDP is designed to train and develop professionals in entrepreneurship development so that they can act as resource persons in guiding and motivating students to take up entrepreneurship as a career.

OBJECTIVES OF THE FDP

Gonna Institute of information technology and sciences had successfully organized A one-week Faculty Development Program on Entrepreneurship Development. This program aimed to impart entrepreneurial and self-employment education among campus faculty so that they could encourage extend help to their students to become entrepreneurs. The program is designed to try and develop teachers and professionals in entrepreneurship development so that they can act as resource persons in guiding young Science and Technology persons to take up entrepreneurship as career.

TOPICS TO BE COVERED

- Entrepreneurship process & model.
- Entrepreneurial Motivation and competencies.
- Initiating, Planning, Implementing and Evaluating EDP curriculum.
- Business profile preparation.
- Small Business Management.
- Formulation of Business Plans.
- To design Awareness Programmes & Training curriculum for students.

PROGRAM REPORT

Name of the Programme: A One-Day training program for Non-Teaching Faculty on MS Office.

Date : 18th September 2019

Details of the Resource Person

- **Name** : Mr.M.Nagaraju.
- **Designation** : Associate Professor.
- **Department** : Computer Science.
- **Organization** : Gonna Institute of Information Technology and Sciences.

Objectives of FDP:

Microsoft Office is a suite of productivity tools that offers various applications, each with its own set of objectives.

Here are the main objectives of some commonly used Microsoft Office

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Microsoft Access

These objectives are not exhaustive, as the Office suite offers a wide range of features and functionalities that cater to different user needs. The tools are designed to enhance productivity, improve collaboration, and provide efficient ways to create, manage, and present information in various formats.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES

(Approved by AICTE, New Delhi, Affiliated to JNTUK, KAKINADA)

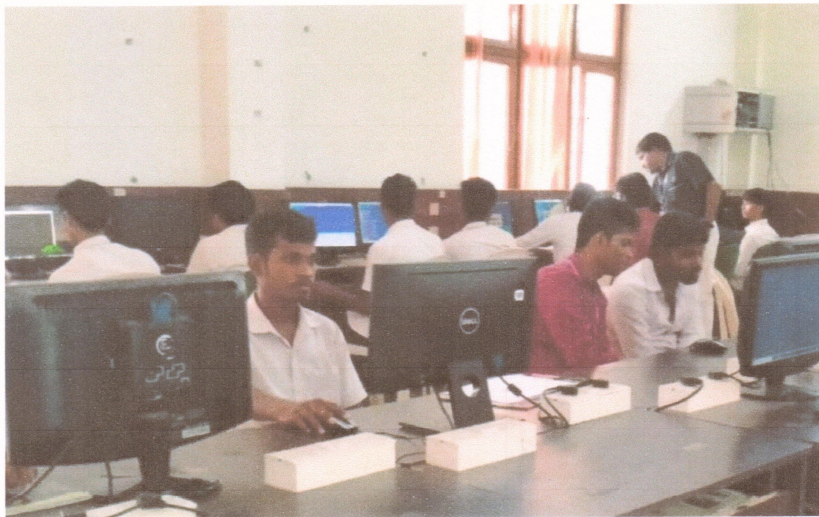

Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

Outcomes of the Program:

The program was very useful for the faculty to understand MS Office. And through this program, every faculty member understood MS Office aspects like

- Accurate data analysis and management
- Engaging and impactful presentations
- Streamlined communication and organization
- Centralized data storage and management
- Increased productivity and time savings

These outcomes highlighted the value of Microsoft Office in facilitating efficient work processes and effective communication.

12th August 2019

CIRCULAR

The Department of Electrical and Electronics Engineering will host "A One-Week FDP on the Advances in UHV Transmission and Distribution," which will be held from August 19th to 23rd, 2019. Therefore, it is strongly advised that the entire faculty participate in this program according to the schedule provided and make it a grand success. All faculties in the relevant department may participate in the program, although registration is required.

Venue: Simulation Lab

ABOUT THE COLLEGE:

The Gonna Institute Of Information Technology and Sciences (GIITS), a pioneering educational organization, was established in 2009 under the direction of Sri. G.B. Naidu, to give students access to high-quality education and the requisite infrastructure. It is located in Visakhapatnam, which is one of the cities in Andhra Pradesh with the fastest population growth. The college, with its multicultural and active community of over 1000 students, provides a variety of courses in the Engineering stream, including graduate-level courses in Civil, EEE, MECH, ECE, and CSE, as well as MBA and M.Tech at the postgraduate level. Since its inception, the organization has worked tirelessly to support the development of great managers, technocrats, and professionals from all over the world to give the Indian industry access to cutting-edge facilities. GIITS offers a range of exciting environments for intellectual development, free-thinking, and personal growth to challenge its students and give them the information, understanding, attitudes, and practical experiences they need to assume social duties. Labs are established with standard equipment as per AICTE and JNTUK norms to meet the requirements of the present curriculum. The campus is Wi-Fi-enabled.

ABOUT THE DEPARTMENT:

The Department of Electrical And Electronics Engineering at GIITS has been active in teaching and research since its inception in 2009. Currently about 20 committed faculty members are working in the department. The department offers a wide range of lab courses to cover various aspects of EEE, including Power Systems, Energy Control Systems and Automation, Instrumentation and Measurements, Electrical Machines and Drives, VLSI and Embedded Systems. These lab courses are designed to provide students with hands-on experience in circuit design, simulation, analysis, Equipment Operation and Control and Circuit Building and Testing. Overall, the hands-on experience gained in EEE department labs allows students to bridge the gap between theory and practice. Moreover, the EEE department regularly organizes workshops, seminars, and training programs updated with the latest trends and advancements in the field.

A One Week Faculty Development Program On

“ ADVANCES IN UHV TRANSMISSION AND DISTRIBUTION ”

19th - 23rd August 2019

Organized by

Department of Electrical And Electronics Engineering

GONNA INSTITUTE OF INFORMATION TECHNOLOGY AND SCIENCES

(Approved by AICTE & Affiliated to JNTUK, KAKINADA)
85 Division, Gonnavanipalem, Anakapalle-530053,
A.P-INDIA

OBJECTIVES OF THE FDP:

- The objective of the Faculty Development Programme (FDP) for advances in ultra-high voltage transmission and distribution is to provide educators and researchers with the necessary knowledge, skills, and resources to stay updated and enhance their expertise in the field of ultra-high voltage (UHV) transmission and distribution.
- The specific objectives of the FDP may include Knowledge Enhancement to familiarize participants with the latest advancements, technologies, and practices related to UHV transmission and distribution systems.
- This includes understanding the principles, equipment, and components involved in UHV systems, as well as the challenges and solutions associated with their design, operation, and maintenance. Research Promotion to encourage and support research activities in the field of UHV transmission and distribution.

TOPICS TO BE COVERED :

The topics will be covered from these following major areas:

- Introduction to UHV transmission systems.
- UHV technology transmissions.
- UHV Power system operation and control.
- Planning and Grid Integration of UHV transmissions.
- UHV technologies for power quality improvement.
- Economics and Policy of UHV transmission system.
- Grid Resilience and Cyber- security of UHV.
- Towers for UHV Transmission systems.
- Capacity enhancement and voltage upgrades.
- Design consideration of UHV substations
- General design criteria for over head transmission lines.
- Hands on experience.

RESOURCE PERSONS

1. Dr.V.V.V.Ch.Mouli
Asst.Prof, EEE
Ashoka Women's Engineering College - Kurnool

2.Smt.Ch.Bharathi
HOD-EEE , GIITS

3. Mr. Madhusudhana Rao Batta
Asst.Prof, EEE , GIITS

ORGANIZING COMMITTEE

Ms.Sadhya Sree Gedela
Asst.Prof, EEE, GIITS.

Mrs.Sri Hemalatha Matthi
Asst.Prof, EEE, GIITS.

Ms.Nirmala Nethala
Asst.prof, EEE,GIITS

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES

(Approved by AICTE, New Delhi, Affiliated to JNTUK, KAKINADA)

Gonnavanipalem, Aganamputi, Visakhapatnam – 530 053

24th August 2019

PROGRAMME REPORT

Name of the Programme: A One-Week Faculty Development Program on “Advances in UHV Transmission and Distribution”.

Date : 19/08/2019 to 23/08/2019.

Details of the Resource Persons:

Resource person - 1	Resource person - 2	Resource person - 3
Dr.V.V.V.Ch. Mouli Professor, EEE Ashoka Women’s Engineering College - Kurnool E-mail:mouli@ashokacollege.in Ph: 7680847734	Smt.Ch. Bharathi HOD-EEE, GIITS Visakhapatnam. Email: giitsee@gmail.com Ph: 9110781537	Mr.MadhusudhanaRao Batta Asst.Prof, EEE, GIITS Visakhapatnam. Email:madhu4301@gmail.com Ph:8096296923

Objective of FDP:

- UHV transmission systems also facilitate international grid interconnections by linking power grids across countries or regions.
- UHV technology enables cross-border power exchange, fostering energy cooperation, resource sharing, and regional energy security and enables better voltage control and reactive power management, leading to a more stable and secure grid operation.
- Advances in UHV transmission and distribution drive technological innovation across the electrical power industry and advancements include the development of specialized equipment, such as UHV transformers, circuit breakers, and insulators.

GONNA INSTITUTE OF INFORMATION TECHNOLOGY & SCIENCES

(Approved by AICTE, New Delhi, Affiliated to JNTUK, KAKINADA)

Gonnavanipalem, Aganampudi, Visakhapatnam – 530 053

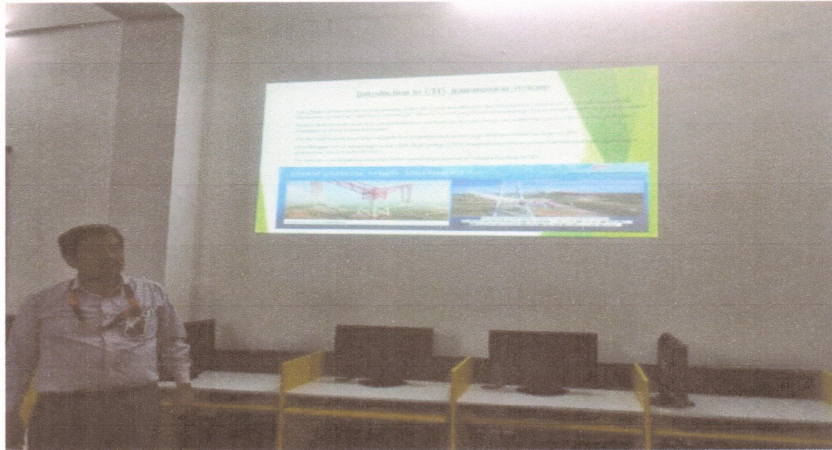

Outcomes of the Program:

- UHV transmission and distribution systems have significantly increased the capacity for transmitting electricity over long distances.
- The high-voltage levels used in UHV transmission and distribution improve the power system's ability to withstand and recover from disturbances and faults, reducing the risk of blackouts and enhancing system resilience.
- These projects create job opportunities during construction and operation, stimulate local economies, and foster regional development by enabling the utilization of remote energy resources.

Resource person 1:

The FDP topics were Presented by Dr.V.V.V.Ch. Mouli, Professor, EEE, Ashoka Women's Engineering College.
